Übung 2

Aufgabe 1 a)

2(76(11(41,7,25(13)),7(16(54,17))),79(87(1,23(5,3)),65))

```
2
       76
              11
                     41
7
                     25
                            13
              7
                     16
                            54
                            17
       79
              87
                     1
                     23
                            5
3
              65
```

c)Ja, die Ebenen und Reihenfolge der Knoten ist in der Klammerdarstellung eindeutig ablesbar.

d)

i)

- a) 5
- b) 4

ii)

- a) (2,76,11,25,13),(2,76,7,16,(54,17)),(2,79,8723,(5,3))
- b) (S,P,A,(N,O)),(S,V,F,G)

iii)

- a) 41,7,13,54,17,1,5,3,65
- b) H,N,O,Q,T,G,J
